1. Click on App Store icon on iPhone home screen

## Searching for Crashzone iPhone app

1. Go to Search tab, and type in “Crashzone” keyword in search bar

2. Click on Search button

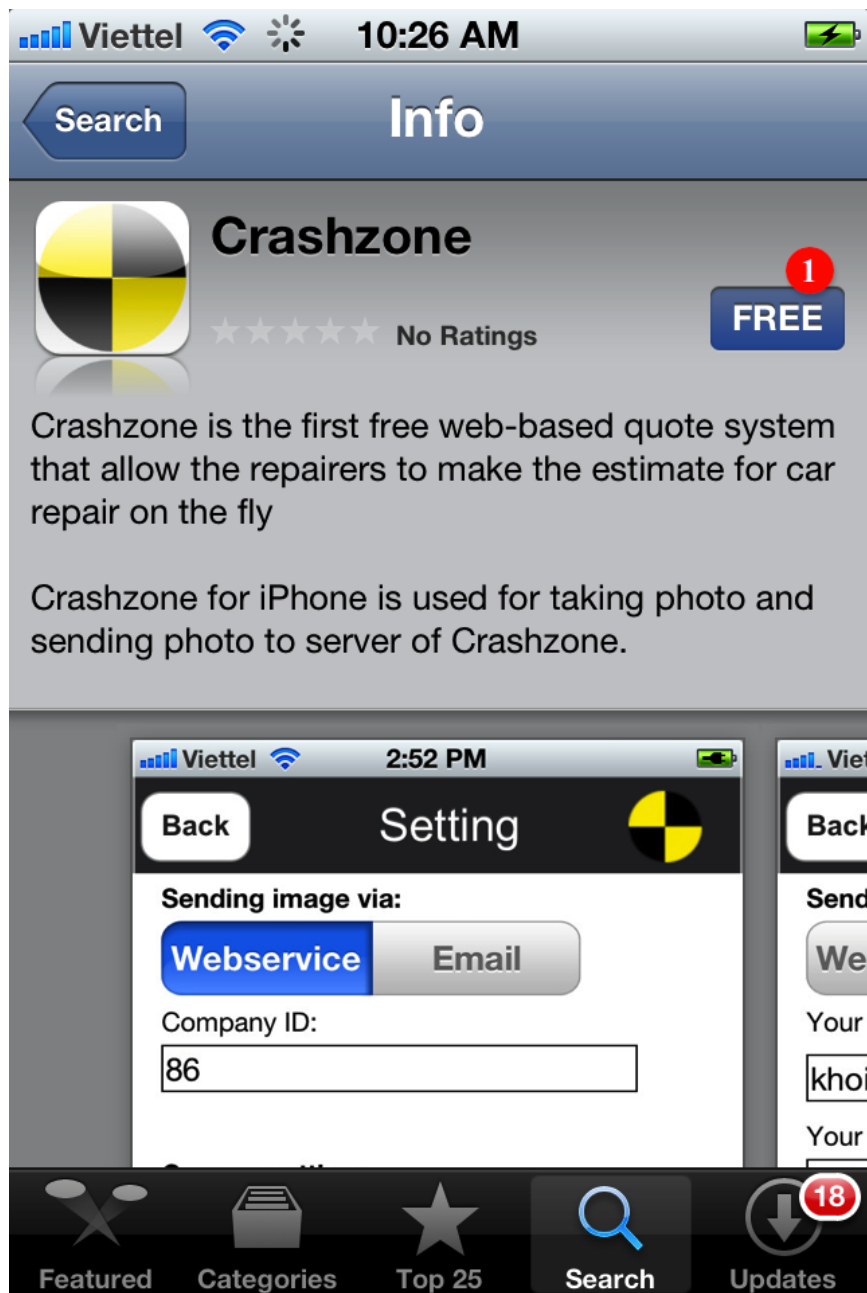

## Install Crashzone application

1. Click on Crashzone in the search results.

2. Click "Free" button to install Crashzone application.

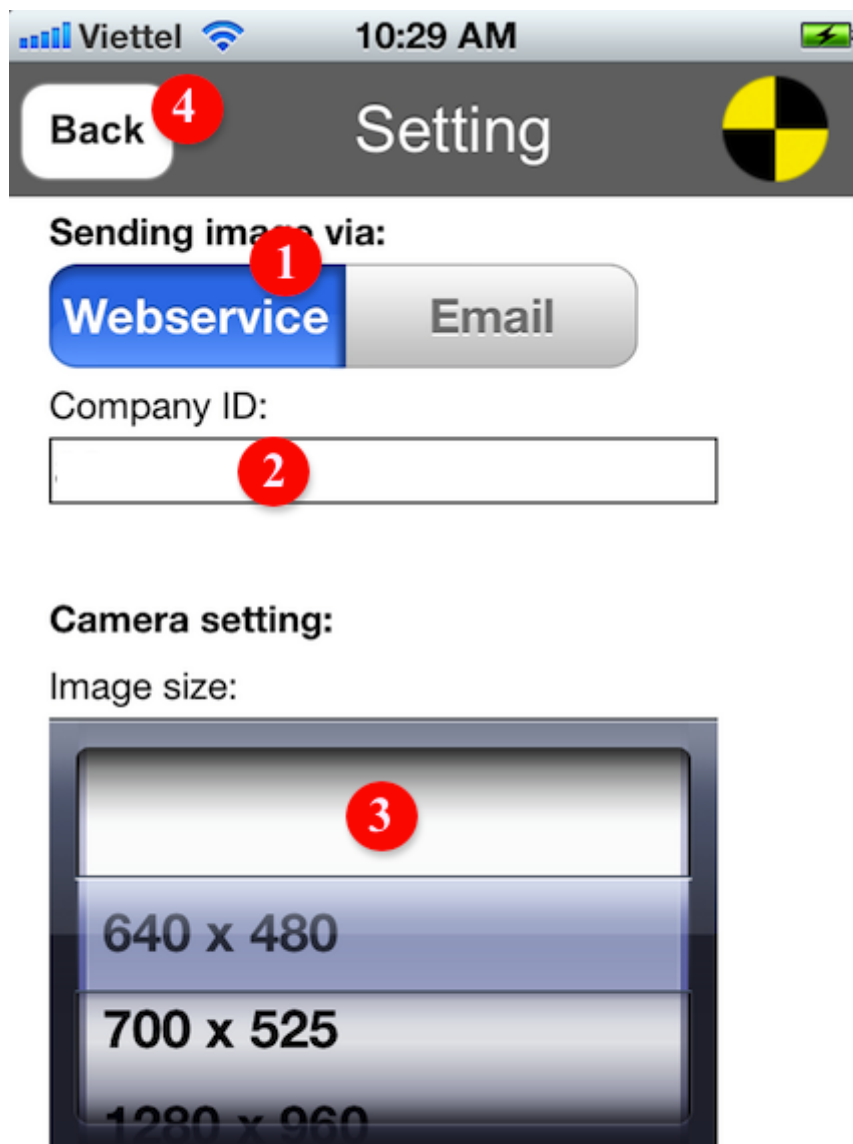

Waiting for installation process

1. You will see Crashzone Application is being installed.

## How to setup Crashzone iPhone application:

1. Select **Webservice**.
2. Enter your **Crashzone Company ID**. Please contact [support@crashzone.com.au](mailto:support@crashzone.com.au) to get your ID number
3. **Image size** is set to 640 x 480 by default.
4. Click **Back** button for save setup.

You can now start using the Crashzone app

## How to take photo and send photo from Crashzone iphone application:

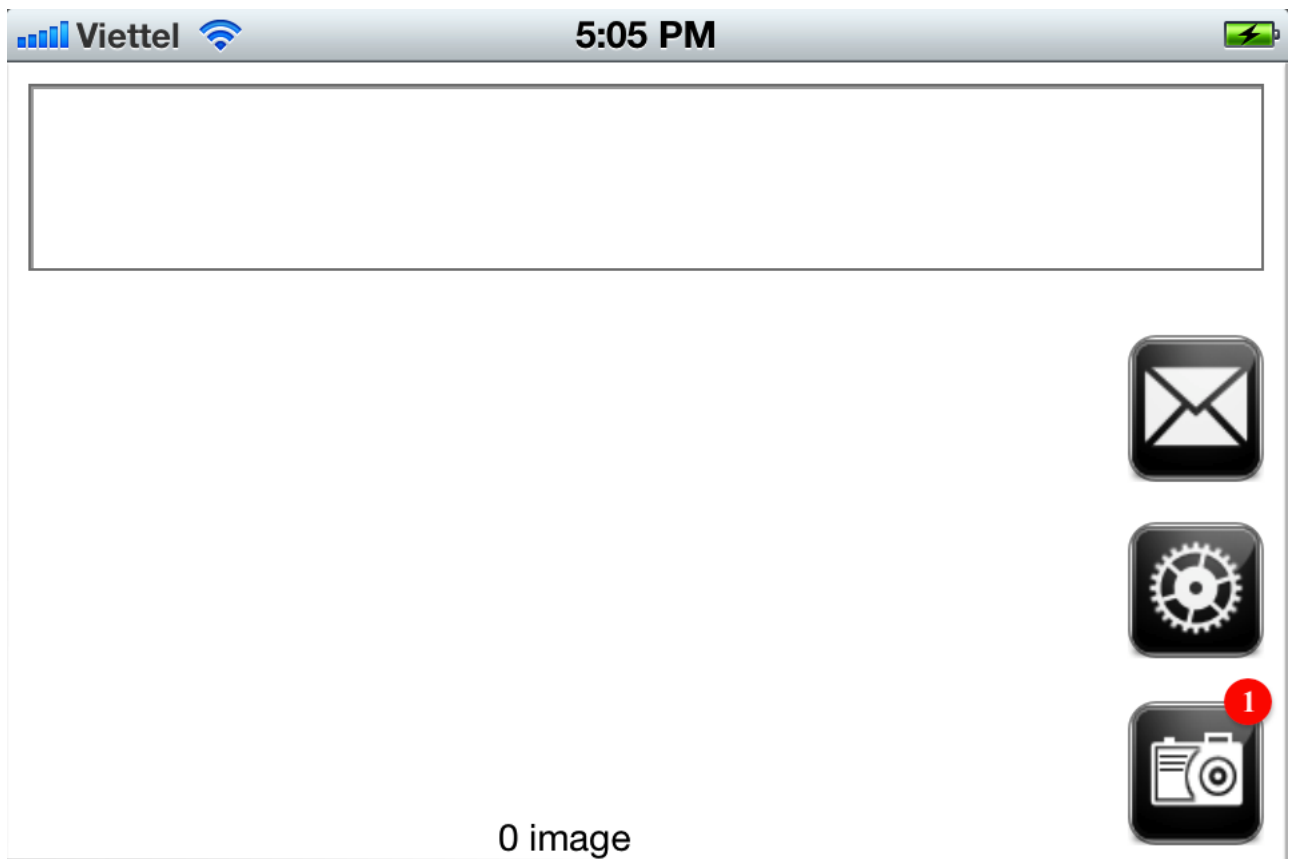

1. Click on text field and enter the quote number that you want to add photos to.

The image shows a screenshot of an iPhone's numeric keypad interface. At the top, the status bar displays 'VN MOBI...' with a signal strength indicator, a Wi-Fi icon, the time '11:44 AM', and a battery icon. Below the status bar is a large, empty rectangular text input field. Underneath the input field is a numeric keypad with three rows of buttons. The first row contains buttons for digits 1 through 5. The second row contains buttons for digits 6 through 0. The third row contains a backspace button (a black arrow pointing left with a white 'x'), a 'Clear' button, and an 'OK' button. A small red circle with the number '1' is positioned to the right of the 'OK' button.

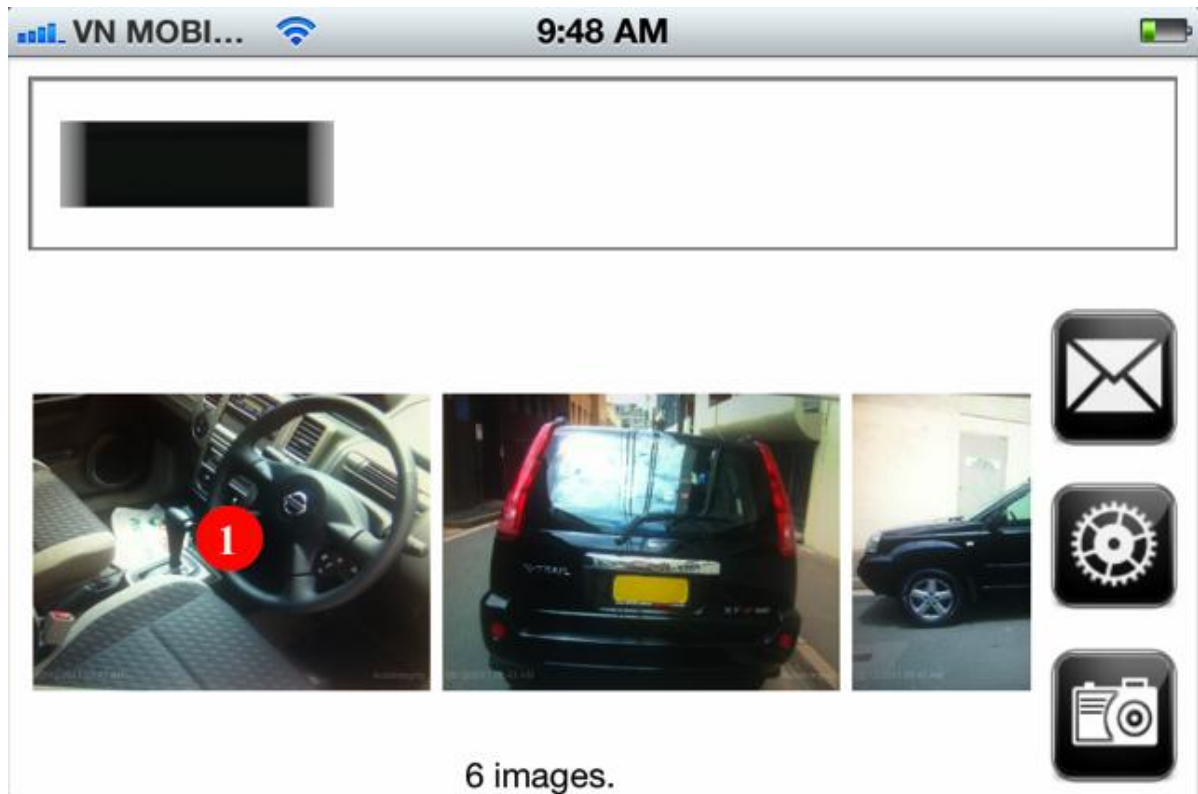

1. Enter your Crashzone quote number and press OK.

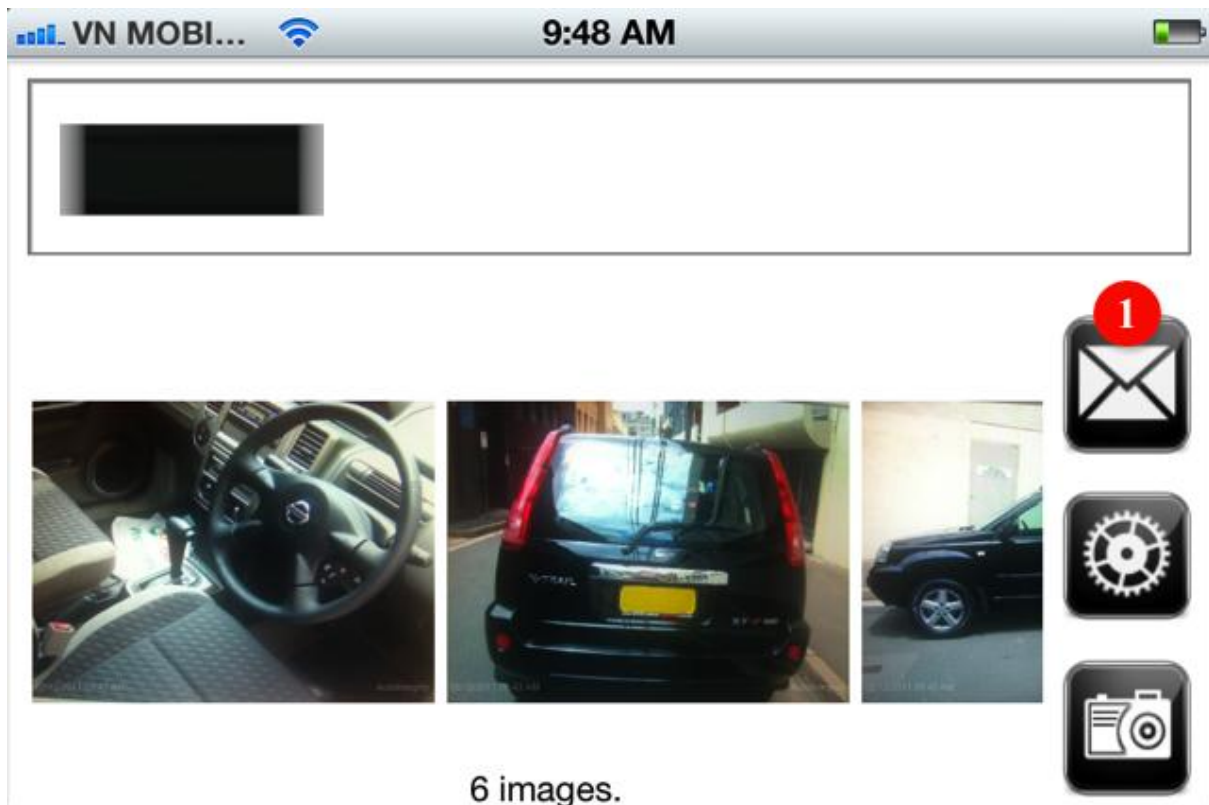

1. Click to camera icon to start taking photos.

1. Click Camera icon to take photo.
2. Click if you want to change mode in front or rear.
3. Click on the "Done" button when you have finished taking photos.
4. The Cancel button will delete any photos taken.

1. You can review the images before sending by clicking on thumbnail view.
2. Click email icon to send photo to job.
3. Click delete icon to delete a photo.

1. Click Email button to send photo to job.

**Note:** If you are logged into Crashzone when sending the photos, you will need to refresh the Crashzone page to see the new photos in the job.
